VOL. LXXV[illegible]—NO. 122 THE MORNING STAR, WILMINGTON, N. C., FRIDAY, SEPTEMBER 7, 1906. WHOLE NUMBER 120018.

OUTLI[illegible]

The report that Nel[illegible] W[illegible] dangerously injured in the [illegible]ith Gans is without foundation——A large number of North Carolinians will witness the launching of the cruiser North Carolina——Gen. H. H. Norman died suddenly at Woodbury, Tenn., yesterday——No appreciable progress has been made towards the settlement of the trouble in Cuba; business men and some higher officials assert that only intervention by the United States will bring about peace——The rowing race Saturday between the Universities of Harvard and Cambridge is exciting much interest——The third of the series of yacht races between German and American vessels for the Roosevelt cup was won yesterday by the American yacht Vim——Secretary Wilson and the packers have come to an agreement on the question of labels on canned goods; the law goes into effect October 1st——Contan Rini sailed from New York yesterday for Italy to keep a suicide pact to die on his sweetheart's grave——It is rumored that the Pennsylvania Railroad will turn over to the U. S. Steel Corporation its control of the Cambria Steel Co.——All obstacles to the return of Bank Wrecker Stensland to the United States have been removed and he will be brought back to stand trial; President Roosevelt has shown much interest in the case; the prisoner has $12,000 deposited in the French Bank at Tangier——The work of exterminating the cattle tick is progressing satisfactorily in the Southern and some of the Western States——Expert accountants have been appointed to examine the affairs of the wrecked Real Estate Trust Company; the receiver issued statement announcing that he hopes soon to reopen the bank and that all depositors will be protected; damaging testimony was presented at preliminary trial of the persons arrested charged with complicity in the wrecking of the institution——The case of the alleged Lyerly murderers will be tried in Stanly county——New York markets: Money on call firm until near the close, when the rate dropped to 5 per cent.; highest 25; lowest 5; ruling 20; cotton quiet at 10; flour steady but dull; wheat firm, No. 2 red, 77 elevator; corn irregular; No. 2, 52 3-4 elevator; oats easy; mixed 35 1-2; turpentine steady, 64 to 64 1-2; rosin steady, $4.05 to $4.15.

There are strong hopes that William Randolph will be hearsed next November.

The luscious bivalve is due this month; but the prudent gourmand will give it thirty days' grace.

The facts show that as a soft-soaper Mr. Segal distanced the field when it came to a question of borrowing millions.

There's one consolation about that deformed spelling—there's no chance for the faddists to shorten the editorial "we."

Those who have undertaken the task will find it hard work to convince people who read and think that Bryan is "the same old 16 to 1."

There are a few newspapers that profess to favor the deformed system of spelling; but they carefully avoid it in their own columns.

The Georgia State Democratic convention went straight ahead and indorsed Bryan for President just as if he had never said government ownership. Evidently, the delegates did not believe that would be an issue in 1908.

We are told that Roosevelt "feels a keen interest in the outcome of the Congressional elections." This is nothing new to the readers of the Star. He is sending such speakers as Taft and Cannon to Littlefield's district in rock-ribbed Republican Maine, fearing even a reduction of the usual majority there.

The Charlotte News thinks life imprisonment would be the proper punishment for Stensland, the Chicago bank thief. We think the old-fashioned "thirty-nine lashes on the bare back" administered every thirty days for twelve months, would come nearer fitting the crime. He robbed thousand of women and children of their hard-earned dollars and squandered much of the money on wine, women and gambling.

LIQUOR APPLICANTS

Standing Committee Discovers New Law and Makes an Additional Requirement.

MUST BE A LEGAL VOTER

Applications of Morris Distilling Company and W. M. Troutman & Co., Turned Down Under New Discovery—To Correct Defects.

Hereafter, at least so far as the present administration is concerned, there will be an additonal requirement to be met by applicants for license to sell retail liquors in the city of Wilmington. During the progress of the investigation by the standing committee on applications as to the Morris Distilling Company yesterday afternoon, it was discovered from a section in the code revisal that each applicant in addition to being a proper person, must also be a bona fide resident and legal voter in the town or city in which he proposes to do business and an affidavit to this effect must accompany each application. The point was made yesterday afternoon by Brooke G. Empie, Esq., counsel for the opposition to the granting of the application of the Morris Distilling Company, which opposition is understood to be backed principally by Mr. Albert Rotschild, a rival dealer. It will be remembered that the application was presented to the Board of Aldermen Wednesday night and that a fight was made on the granting of the license then with the result that the application was referred to the standing committee on applications with instructions to report at the special meeting of the Board Monday night. Chairman O'Brien, of the committee, being Mr. Rothschild's landlord, declined to serve on the committee and appointed Alderman W. H. Yopp in his stead, constituting the committee as follows: Alderman P. Q. Moore, chairman, and Aldermen Yopp and J. O. Brown. It was decided to hear no attorneys on the question but to leave any discussion for the open meeting of the Board Monday night. The Morris Distilling Co., was represented by William J. Bellamy and C. D. Weeks, Esq. The law as to the applicant's being a legal voter was cited by Mr. Empie and was held by the committee to be a point well taken, though it was admitted that in the past this requirement had been overlooked, even in the case of Mr. Rothschild himself when his application was originally received, and again in the case of the Southern Distilling Company and others. The application was signed by the Morris Distilling Co., per A. W. Branch, a citizen of Wilmington, but even this was not held by the committee to be sufficient.

The committee decided to report adversely on the granting of the application of the Morris Distilling Co., on the ground stated, but it is expected that Mr. Branch or some other person, a resident of Wilmington, will make the application in strict accordance with the law and that it will be passed by the Board.

The application of W. M. Troutman & Co., to run a grain distillery at Ninth and Cape Fear streets, was like wise turned down by the committee on the ground that there was no affidavit as to who composed the firm of W. M. Troutman & Co., and whether or not the members of the firm are legal voters of the city or county.

It is understood that this requirement will be enforced strictly in the future and in additon to the affidavit of the freeholders an additional affidavit will be required as to the eligibility of the applicant himself so far as his being a legal voter is concerned.

Mr. Morris Bretzfelder, of the Morris Distilling Company, was obliged to leave the city yesterday, but it is expected that he will return in time to correct the defect in his application and that the same will be passed at the special meeting of the Board of Aldermen Monday night. The same will doubtless be true of the application of W. M. Troutman & Co.

Winding Up Affairs of the League.

Affairs of the City Baseball League for the season of 1906 were wound up and arrangements were set on foot for the season of 1907 at a well attended meeting of the League Wednesday night at the Y. M. C. A. The pennant was presented to the Seventh Street Rattlers and a financial statement was made showing a net amount of $146,32 in the treasury after meeting all expenses. The age limit of the teams was extended from 18 to 21 years for the next season.

ROBESON DEMOCRATS

County Convention Held Yesterday on Court House Lawn—McLean For Senate and McRae, For Lower House—Other Nominations.

(Special Star Telegram.)

Lumberton, N. C., Sept. 6.—The Democrats of Robeson county held their county convention to-day on the Court House lawn, where seats had been arranged in picnic fashion. As was anticipated the court house would not have held the crowd. All townships were represented by full delegations. There were a large number of spectators from all parts of the county besides.

There were two candidates for the State Senate—Col. E. F. MacRae, of Maxton, and Col. N. A. McLean, of Lumberton. The latter was nominated Col. McRae was later nominated as a member of the lower house of the Legislature. Mr. M. H. John was the other fember nominated.

There were five in the race for clerk of the court, W. H. Humphreys, the present incumbent, being re-nominated.

The warmest fight was on the sheriff. Mr. E. C. McNeill defeated Mr. J. A. Barker for this position. D. W. Bullock was nominated for register of deeds, G. E. Raecke for coroner and J. D. Ferguson for surveyor. J. W. Carter, A. R. McEachern, C. A. Oliver, R. S. Alderman and A. L. Bullock were nominated for county commissioners.

The convention adopted resolutions instructing its members of the Legislature to have the legalized primary for the county.

ACADEMY OF MUSIC ATTACHES.

Meeting Last Night for Organization Preparatory to Season's Opening.

Attaches of the Academy of Music in view of the opening of the season with Murray & Mack to-morrow night, met last night and organized, received their assignment, etc., and are now prepared to look after the theatre affairs in every respect. Mr. F. P. Turrentine has been appointed manager for the season; Mr. W. D. Huhn, treasurer; Mr. Jake Solomon, assistant treasurer, and Mr. Pat Gerken, ticket agent. Behind the stage Mr. J. D. Mote will direct affairs; Mr. George Mote will be assistant director; Mr. J. T. Yates, chief electrician; Mr. J. G. Phillips, manager of properties, Mr. W. B Savage, general house officer. Mr. Hall Whitney will have charge of the heating and the stage crew will consist of Messrs. T. M. Guttenberg, D. H. Barnett and S. A. King. There are twelve clever ushers and all in all the Academy staff this year is said to be the best ever engaged by the management.

TO ARREST FRED HILL.

Officers Gone Again For Violently Insane Sound Negro.

Fred Hill, the negro maniac on Federal Point about which there has been so much hurrah, was reported yesterday afternoon to have returned to this county and to be occupying his usual haunts in the swamps and around the Sound. The information came to the sheriff's office and Justice Bornemann immediately made out another warrant for his arrest and placed it in the hands of Constable Savage and Deputy Sheriff W. H. Cox, who left at 4 o'clock in the afternoon for the Sound to see what they could do to take the negro in custody.

At a late hour last night the officers had not returned to the city but it was reported that they had the negro located and would bring him to town this morning.

FINANCES OF THE COUNTY.

Auditing Committee of Commissioners in Session Yesterday.

The Auditing Committee of the Board of County Comffisioners was in regular monthly session yesterday afternoon at the Court House, Chairman McEachern and Commissioners Vollers and Robertson in attendance. The business of the meeting was largely routine. The treasurer's monthly statement showing receipts and disbursements for August was examined and approved, showing a very creditable balance to the credit of the several funds. An additional $800 of the Court House Bonds, recently called in by the Commissioners, was burned by the Board with coupons of interest on others. It was decided to exempt the attractions of the proposed Eagles' Carnival from taxation.

DYE HOUSE BURNED

Destructive Fire Yesterday at Noon at Plant of Wilming. Cotton Mills.

DAMAGE ESTIMATED $15,000

Fully Covered by Insurance—Main Building Saved With Difficulty and by Hard Work of the Operators.

The dye house and plant of the Wilmington Cotton Mills, a two-story brick structure situated on corner of Surry and Dawson streets, was completely destroyed by fire together with machinery and about ten bales of cotton, yesterday at noon. Although situated within six feet of the main mill building, the latter was saved with comparatively no damage. The loss is estimated by Wilmington Cotton Mills officials at $15,000, fully covered by insurance with the Factory Mutual Company, represented in this city by the Willard & Giles Company.

The dye plant was operated jointly by the Wilmington Cotton Mills and the American Chemical and Textile Coloring Company, which lost its plant in the old Industrial Works building about a year ago and of which Mr. H. M. Chase is the general manager. The fire originated in the cotton dryer and was discovered by the man in charge. The machine is kept at a temperature of something like 300 degrees and although the automatic sprinklers were at once put to play on the flames and the factory hose was turned on from the water mains, the class of the material was such that the fire made rapid headway. In a few minutes the pumps from the mill were also brought to play on the house, but this also had no effect to check the flames and the entire building was soon enveloped. By some misunderstanding the fire alarm in the mill yard was not turned in to the City Department at once, but a little later a small boy on Queen, between Front and Surry streets, saw the smoke issuing from the roof and turned in the alarm from box 45 at Front and Castle. When the firemen arrived on the scene the flames had gained such headway that it was impossible to do anything to save that building and all efforts were concentrated on saving the main building of the mills. The picker room of the mill, containing highly inflammable material was on the side of the main building next to the fire, but the operatives headed by Mr. Chase and Mr. R. L. Thomas, superintendent of the mills, worked faithfully and the fire did not communicate thither. The automatic sprinkler on that side of the big building was put to work sending a sheet of water down the side of the wall and that did much to keep the fire from catching.

The destruction of the dye house will not result in shutting down the mill as has been popularly supposed, though the weaving room will not be operated for two or three weeks. In the meantime the factory will make warping and will be run on full time.

THE MAYOR'S COURT.

White Woman Sent to County Farm—Other Cases.

"Old Timers" occupied the centre of the stage in the police court yesterday, the case attracting most interest, perhaps, having been that of Florence Lewis, a depraved white woman, arrested at the Front street station of the Atlantic Coast Line Wednesday night by Special Officer C. T. Croom, charged with disorderly conduct. The woman said that she was going to take the excursion train out of town when the officer arrested her, but she was so disorderly and was flaunting herself in the face of decency to such an extent that the arrest was justified. Mayor Pro Tem. O'Brien gave her 15 days at the county farm.

Tom Branch, bobbed serenely up at the call of his name by the clerk and pleaded guilty to the charge of being drunk and down, his arrest having been by Officer Leon George. Tom seems fixed in his ways and the Mayor could do no better than repeat the oft told story—30 days on the highway.

Maggie Dry, colored, was disorderly on a street car at Sixth and Princess street and was arrested by Conductor H. R. Smith, a special officer by virtue of his employment. The woman was fined $5 and costs which she paid.

Lewis Sanders, colored, charged wth driving on the sidewalk was let off with the costs, the sidewalk being so far out that it was hardly distinguishable from the street.

MARRIED AT CRONLY

Miss Carrie Rowell King, Attractive Bride of Mr. Jno. W. Plummer, Jr., of This City—Announcement A Surprise to Friends.

As quite a surprise to a large number of friends in this city and elsewhere will come the announcement of the marriage of Mr. John W. Plummer, Jr. and Miss Carrie Rowell King both popular young people of this city. The ceremony was performed at 8:30 o'clock last night at the home of the bride's aunt, Mrs. Chinnis, at Cronly, N. C., where Miss King had been visiting for some time. Although the engagement had been announced some time ago, the secret of the marriage had been jealously guarded by the young people, except within a very select circle of intimate friends, and the announcement last night was received with much interest.

The groom-elect, accompanied by his best man, Mr. William Struthers, Jr., of this city, went up on the afternoon train to Cronly yesterday afternoon and the ceremony was performed in the presence of a few friends at the hour named by the Rev. A. McFadyen, pastor of the Presbyterian church at Clarkton. The wedding is described as a very pretty one indeed. Following the ceremony a brief reception was held and an elegant wedding supper was served. Mr. and Mrs. Plummer arrived last night on the midnight Seaboard Air Line train and will be at home to friends in this city, where both are very popular.

Mr. Plummer is a leading confectioner of the city and enjoys a fine patronage. His numerous friends will congratulate him upon winning the heart and hand of one so fair. The bride is an attractive young woman of this city and is much loved and admired in a wide circle of friends.

ENTERTAINED IN COUNTRY.

Mr. and Mrs. Owen Martindale Had Merry Party of Guests.

Mr. and Mrs. Owen Martindale delightfully entertained a party of young people last night at their hospitable country home on the Carolina Beach road in honor of Miss Alma Krunke, of Washington, D. C., who has been an attractive visitor in the city for some time. Mr. Martindale sent a large wagon drawn by four mules to the city for the young people and they enjoyed a delightful hay ride by the moonlight to the comfortable home of the host and hostess. The visitors were most cordially received and charmingly entertained during the evening, an elegant supper having been served later. The young people returned to the city about midnight after a season of unalloyed pleasure.

Among those present were Misses Sallie Smith, Kenansville; Etta Fick, Kate Gerdes, Sadie Booker, Clara Bornemann and Katie Bornemann; Messrs. J. L. King, Otto Genaust, Rudolph Mason, N. W. Edwards, of Greenville, N. C.; Walter Blair and Kenan Wilson.

Chaperones: Mr. and Mrs. G. W. Borneman, Mrs. Henry Gerdes.

Extra Cars Sent to the Beach.

In view of the storm warning continued by the Weather Bureau and some degree of alarm by the more timid residents of the beach, as a precautionary measure, three additonal cars were sent to Wrightsville last night in cnarge of crews in case there should be any desire for any large proportion of the residents to come to the city during the night. One car remains at the beach every night but in view of the storm warning, it was decided to send an extra three cars so that there would be no possible grounds for complaint at the Consolidated Company. General Manager Skelding left yesterday for Linville to spend a while and left an order with Chief Conductor Sheehan for the three cars to be sent down after schedule hours.

THE COUNTY CONVENTION

Nominations Completed Yesterday After Seven-Hour Session—Mr. Bryan Endorsed With Constitutional Amendments.

(Special Star Telegram.)

Fayetteville, N. C. September 6.—After a seven-hour session Cumberland democracy feels proud and confident of an unusually strong ticket. The convention was called to order today by Chairman J. H. Myrover at 12 o'clock, C. J. Cooper was made permanent chairman and R. H. Dye secretary. John W. McLauchlin, of Raeford, was named for the Senate. Another Raeford man was named for sheriff, N. A. Watson, who defeated W. H. Marsh the present incumbent and J. C. Adams. He was named on the third ballot.

The following officers were re-nominated: Coroner, J. C. McGougan; Surveyer, Charles Jessup; Register of Deeds, W. M. Walker; Treasurer, J. B. Troy. There was no opposition to these candidates.

A. A. Mackethan was again nominated for clerk.

Four county commissioners went in on the first ballot. They were Herbert Lutterloh, John M. Owen, (renominated), Loughlin, McDonald and J. W. Johnson. W. J. Olive was named on the next ballot. There were twelve candidates in this race. There were six candidates for the Lower House, including two lawyers. Dr. J. W. McNeill, of Hope Mills, was named on the first ballot, receiving 163 votes, the highest vote given any candidate and H. H. Bolton, a veteran, was named on the third ballot.

The following offered by Maj. Hale was adopted:

Resolved, That the Democratic State Committee be requested to add to the published and official copies of the State platform the resolutions adopted by the recent State Convention endorsing Mr. Bryan and calling for constitutional amendments validating an income tax and providing for the election of Senators and Judges by the people.

Resolved, That the nominess of this convention for seats in the General Assembly be instructed to urge the adoption by that body of a resolution requesting our United Senators to use their best endeavors to bring about the change in the fundamental law necessary to effectuate the foregoing reforms therein.

Dr. J. H. Marsh, from the County Medical Society, prefacing it with proper remarks, offered a resolution that our Senators and members of the Lower House of the Legislature be requested to use their influence to provide accomodations for the unfortunate insane. It was unanimously passed, Mr. J. W. Atkinson making a speech in its favor.

MRS. H. W. MALLOY DEAD.

Passed Away Yesterday In Asheville—Interment in Laurinburg.

Telegrams received by friends in this city last night from Mr. H. W. Malloy, president of the Navassa Guano Company, conveyed the sad intelligence that Mrs. Malloy passed away the same afternoon at Asheville, N. C., where she had been for some time with the hope that the climate would be beneficial to her health. Mr. Malloy and little son, a sister and Mrs. Malloy's father were with her when the end came. The bereaved ones have the tenderest sympathy of many friends in this city and section. The interment will be at the home of the family at Laurinburg, N. C., Saturday morning at 11 o'clock. Mrs. Malloy was a daughter of Mr. Peter MacRae, of Laurinburg, and had been an invalid for several years. While her death was not unexpected, it came as a sad blow to family and friends. Of the immediate family, Mrs. Malloy is survived only by her husband, Mr. H. W Malloy, and a little son, Master H. W. Malloy, Jr., aged about 15 years. A large number of other relatives live at Laurinburg.

Bound Over to Higher Court.

In Justice Furlong's court yesterday Charlie Ellers, the young white painter charged with the larceny of several pair of trousers, coats, etc., from the sample room of Mr. Albert Solomon, on the second floor of the Chamber of Commerce building, was given preliminary trial and was bound to the higher court. In default of $100 bond, he went to jail to await the term beginning this month.

THE DEMANDS OF THE NEGROES.

At the recent annual meeting of the "Niagara Movement" held at Harper's Ferry the negro leaders issued what they called an address to the American people, outlining their demands. Among these demands are equal rights, manhood suffrage without discrimination, the abolition of the Jim Crow car laws and better education for their children in the South, for which, of course, the whites are expected to stand the expense. The leaders of the "Niagara Movement" also resolved to "reconsecrate themselves and their honor on the scene of John Brown's martyrdom to the cause of negro rights" and concluded with the declaration that the negroes "are not more lawless than the whites, but more often mobbed." In commenting on the demands and the resolutions the Philadelphia Ledger says:

"On the day that this address was issued a negro who made an atrocious assault on a little white girl in South Carolina was shot to death by a mob, in spite of the authority of the Governor of the State. Within the past few days two other brutes met the same fate in the same State in the face of Governor Heyward's most active efforts. Within the confines of the city of Atlanta half a dozen negroes made like hideous attacks on defenseless women and children within a few weeks, and the lynching mob has been busy. In the meantime. Hoke Smith has won the fight for nomination to the Governorship by an overwhelming majority on the platform of negro disfranchisement and discrimination against the race.

"Moreover, the chronicle of negro attacks on women from other parts of the South is becoming an alarmingly large part of the daily record of events "It is futile to aver that these reports of atrocities are the inventions of negro haters, fabricated for the purpose of fanning prejudice into flame. They are hideous facts, to which bear witness the Governor of South Carolina, the authorities of Atlanta, the ruined homes of innocent men and the dangling bodies of negroes riddled with bullets.

"The men of the Niagara Movement, says the Chattanooga Times, attest that thenegro hater has been too active in the past year. There is a feeling that the Niagara Movment's address was incomplete, and in its incompleteness fails to take the measures calculated to put the rabid negro hater out of court."

It is a notorious fact which has attracted the attention not only of the Philadelpiha Ledger, but other leading Northern newspapers that there was not in the address of the leaders of the "Niagara Movement" a single word of detestation for the hideous crimes of the negro race that cause lynchings, and is causing all negroes to be hated and disturbed. There wsa no pledge or promise made in the address to consecrate the intelligent men of the negro race to the work of eradicatin the great evil which is the prime source of the prejudice of the whites against the negroes.

It may be that when intelligent negroes such as those who are the leaders of the "Niagara Movement" manifest a sincere desire to deal with the "new negro's crime" in behalf of both races, their demands will be received with more consideration than they are at the present time.

The Philadelphia Inquirer, commenting on the recent failure of the Real Estate Trust Company in that city, comments wisely: "So we may pity but yet must condemn unsparingly if only as a lesson to other directors who, in an easy-going manner, take it for granted that all is right and pay no attention to the obligations assumed. It is the business of all directors to know, not to take for granted, and if anywhere in this broad land there are other directors who do not now, let them be warned while there is still time. "Too late!" is a fearful cry to hear ringing in one's ears."

CURRENT COMMENT.

—The American public has been buncoed by Andrew Carnegie, who has been busy giving away libraries full of books with obsolete spelling in them.—Louisville Courier-Journal.

—The Jacksonville Times-Union wants to let the President spell as he pleases, as he is subject to spells, any way." Yes, he has 'em frequently, but this is a little the worst spell he has had.—Montgomery Advertiser.

—The daily literature of New York abounds with references to a structure called the Subway, where all sorts of queer things happen, including occasionally an uneventful train run from one end to the other.—Philadelphia Inquirer.

—A delegation of oysters from Oyster Bay waited on the President on the 1st of September,' says a grape vine telegram, "and that the Fat Ones united in a request that the President reform the spelling of certain months by leaving off the 'r,' so that they might grow old and have whiskers.—Raleigh News and Observer.

—Please note that the immense crowd of Democrats from every State assembled to greet Mr. Bryan demanded "Maryland My Maryland," "'Way Down on the S'uwanee River," "My Old Kentucky Home," and then rose and cheered wildly to the strains of "Dixie." The South was at home there.—Florida Times-Union.

—The Springfield Republicans ventures the opinion that the reason Southern political campaigns wax so hot and the candidates grow so "personal" is that the campaigns are too long drawn out. Discussion grows irksome and "cussing" is a welcome substitute. The difficulty, is, how are you going to make the campaigns shorter as long as freedom of speech remains one of the inallenable rights of men and politicians.—Columbia State.

TWINKLINGS.

"Yes, she says she will break her husband's will." "But her husband isn't dead, is he?" "No, but she knows what's in it."—Cleveland Plain Dealer.

City Editor—You say that this man is "enjoying a vacation," etc. How do know that he is "enjoying it?" Reporter—Because his wife didn't go with him.—Judge.

"Marie, since I've been away you've been wearing my dresses." "But didn't madam give me explicit orders that they should be aired?"—Meggendorfer Blaetter.

Gridge—That will be a fine marriage a splendid alliance. The bride's father is rich, too; he made a fortune in copper. Bridge—That's not an alliance; it's an alloy.—Le Rire.

"Why do you suppose Jinx has asked his mother-in-law to come and make her home at his house? She hasn't any money." "Perhaps he has an eye on a Carnegie hero medal."—Houston Post.

"This is a hard position," said the Czar's fortune-teler; "very hard." "What's the trouble?" "I can't make up my mind whether I'm hired to be optimistic or reliable."—Washington Star.

Binks—I believe that Mary does not love me any longer. Jinks—Did she say as much? Binks—No, but she let her little sister sit in the parlor with us last evening.—Woman's Home Companion.

Sympathetic Friend—Cheer up. Perhaps they will let your husband out of jail soon. Mrs. Wringertub—That's what I'm afeared of. Now that I hadn't anyone ter support I wuz a-goin' ter take a vacation, but if they lets him out I'll hev to go back ter washin"—Chicago News.

The Birds at Dinner.

If we notice carefully the beaks of all the birds we see, it will help us, by indicating their habits of feeding, to locate them in their families and thus lead us to their correct names. All the sparrows have short, stout beaks, well suited to cracking open seeds and grain, which are their usual food. The thrushes have a curved bill, convenient for holding worms and digging in the soil. They find most of their food on the ground, poking among the dead leaves and rubbish for grubs, beetles and larvae. Our robins, which are true thrushes, do valuable spring work in the garden and lawn pulling worms from the soil. Have you ever watched a robin at work? How he tugs and pulls when the worm is long and does not come easily! There are an energy and a certain business air about him when at work which are very interesting. The tiny humming birds, with their long, needle shaped bills, are well equipped for securing honey from the very heart of the trumpet flowers and honeysuckles. They find numerous small insects within the flower as well as honey.

The Art of Begging.

The head waiter of a famous New York restaurant said the other day:

"A few nights ago, after having charge of a very large dinner, I started for home. My way led me through West Seventy-second street, where, late as it was, I saw a little girl only a few years old sitting on the lower step of a private stoop, crying and sobbing as if her heart would break. I stopped to ask her what was the matter, and she told me that she had got lost uptown, that she knew where she lived—in Sixteenth street—and that if she only had car fare she could get back there. Being in a hurry, I gave her a quarter and started to pass on.

"The moment the kid got the coin she jumped up and ran away around the corner like lightning. I never before saw anyone disappear so quickly. It dawned on me at once that I had been 'dead easy.' Of course she was simply a well trained little actress and had taken the quarter to her father or mother, who was in hiding near by. It's an outrageous shame that a little child should be trained up in that way."—New York Post.

BUFFALO LITHIA WATER

Is Offered to the Public Upon Its Record of Results Accomplished. These Well-Known Medical Men Speak From Experience.

"THE SAFEST, SUREST AND MOST AGREEABLE AGENT FOR REMOVING URIC ACID FROM THE SYSTEM."

Dr. Allard Memminger, *Prof. Chemistry and Hygiene and Clinical Prof. Urinary Diagnosis, Medical College of South Carolina, Charleston:* "I have used in my own case and prescribed for others **BUFFALO LITHIA WATER** for Uric Acid Troubles with excellent results. I regard it as the safest, surest and most agreeable agent for the removal from the system of this most pernicious derivative of Uren."

"IS SPECIALLY INDICATED IN ALBUMINURIA OF PREGNANCY."

Dr. B. M. Baker, *Member Virginia State, Seaboard and Norfolk City Medical Societies, Visiting Surgeon to St. Vincent's Hospital, and Physician to Norfolk City Prison:* "I have no hesitancy in saying that **BUFFALO LITHIA WATER** has proven itself, in my hands, to be a most valuable remedy for the many ailments due to excess of Uric Acid in the system. It is especially indicated in Albuminuria of Pregnancy."

ITS VALUE IN RENAL COLIC.

Dr. Edward McGuire, *Prof. Gynecology, etc., University College of Medicine, Richmond, Virginia:* "**BUFFALO LITHIA WATER** has done me a great deal of good. Up to two years ago, when I begun drinking this water regularly, I had been suffering with repeated attacks of Renal Colic. Since then I have not had an attack. I attribute this to the use of the water entirely."

Additional medical testimony on request. For sale by general drug and mineral water trade.

SPIRITS TURPENTINE

—The contractors of the Raleigh and Pamlico Sound Railroad have received three car loads of mules to be used on the work east of Wilson.

—With a full completement of teachers and the largest enrollment in its history, the Baptist University for Women, at Raleigh began its Fall session Wednesday with the best of prospects.

—Mr. A. C. Mauney estimates now that damage to the Whitney plant by reason of the storm last week will reach $20,000. This is but $5,000 less than the damage was thought to be the day after the storm.

—In the Superior court in Halifax county at Scotland Neck Judge Neal sentenced a white man to six months on the roads for trying to intimidate a witness who was summoned to court to give evidence against a negro charged with selling whiskey.

—Greensboro Record: The Southern Railway began Monday operating a standard chair car on trains 108 and 135 between Greensboro and Goldsboro. Hereafter it will be a regular institution. It leaves here at 7:20 a. m. and returns on the 6:35 train in the evening.

—Kinston Free Press: Every day brings a big break of tobacco on the local market and the sales last until late in the evening each day. Business is good with the merchants and a general air of prosperity pervades the city. Tobacco is selling well, the prices being satisfactory.

—Mr. A. M. Crowell, of Monroe, has the flag carried by the 4th North Carolia regiment, four companies of which command were from Union. The flag was found among the effects of Col. Hall, of the 46th regiment, and it is not known how he got it. The labels of the battles the 48th was in are sewed on the flag.

—Congressman W. W. Kitchin of Roxboro, who opened the campaign in a strong speech at Lillington on Tuesday will next speak in Surry county. It was announced at the state Democratic headquarters that Mr. Kitchin would address the voters of Surry county at Dobson on Saturday, September 15. At this time the Democratic county convention of Surry will be in session. Mr. Kitchin's eloquence will no doubt atract a large crowd and he will give his hearers Democratic truths straight from the shoulder.

Lexington Dispatch: A young white man named Henderson one day recently attempted criminal asault upon the person of Mrs. Lucina Littlejohn, of Polk county. The woman was returning to her home from a visit to a neighbors when Henderson seized her in a strip of woods and there ensued a frightful struggle. Mrs. Littlejohn finally escaped from Henderson and ran screaming to her home a quarter mile away. Her clothing was torn to shreds. Henderson is a bad man, the woman well thought of. He is in jail.

—Evidently the Republican bosses in Lexington to not care to have the country Republicans in their party councils, for Saturday night they held the Lexington township "primary," a time when no farmer could attend. It didn't sit well with some of the boys out of town and some of them are somewhat sore over it. However it is strictly in accord with Republican methods. The bosses will make up the ticket next Saturday and the convention will endorse it, and then the countrymen whose absence is more welcome than their presence in a primary will be ordered to vote for the nominees.

—News and Observer: Previous announcements concerning the enrollment of Wake Forest College have been ultra conservative. At present the enrollment is at least sixty in advance of last year at the corresponding date. A practical result is an unprecedented pressure on space available for rooms and board. The president is forced to advise students still intending to come to secure rooms before leaving home. This situation is bringing to the attention of the friends of the college the necessity for new dormitories and possibly a commons hall.

—The freshet in Roanoke River went over and destroyed at least 300 acres of corn in this vicinity. Mr. A. E. Wilson, general manager of the Mush Island farms, says it destroyed 200 on his farm, and there were over one hundred acres of other land on which the corn was totally destroyed. The loss on the Mush Island farms will be fully 1,600 bushels of corn value at $1,000. This includes portions of Mr. Wilson's crop of crops of some of his tenants. The river reached the high water mark of 37 feet. If it had gone a few feet higher the entire crop of corn would have been destroyed on the river lands. It was a serious loss, as it was, but it might have been much worse.

—On account of the recent publications in the Daily Industrial eNws and other city papers, several persons who have been compelled to pay an unreasonable amount of interest have made public their troubles, and complaints are heard on every hand. It was learned yesterday that one of the gentlemen who has ben fleced was on his way to Greensboro to have his wrong righted and is determined to make it warm for somebody. Attorney W. J. Sherrod, who conducted the prosecution of the recent case against the Bennett Loan Company, states that he has several other similar cases, but at present declines to give any names.

—Capt. Edgar Hart one of the model conductors of the Atlantic Coast Line displayed much nerve and courage and cool determination in the performance of duty on his train last Safurday night. Three boisterous drunken fellows boarded his train below Wilson and paid their fare to that point. They then concluded that they would come on to this place, but swore they would not pay for the further ride. The train was stopped to give them an opportunity to walk, and they then, with many threats and much profanity, brought forth the change. When they arrived at this station they, one of them especially, further swore they would go to Rocky Mount, and without paying fare. They were promptly turned over to the police and in our "lock-up" they sweetly reposed the balance of the night.—Elm City Mirror.

—Allegig that blasting operations conducted by the Southern Railway company near her home on the French Broad river has caused her to have nervous postration and a general breakdown, Mrs. Dixie Burnett has instituted suit in Superior court demanding that the Southern pay her $5,000 for such alleged injuries. She alleges that the blasting began some two months ago and that not only did blasting nearly drive her distracted, but that large rocks were thrown on her house thereby increasing her terror. The plaintiff is between 60 and 70 years of age and alleges that because of this extreme age she was unable to flee from the aforesaid fragments of rock and noise of blasting. She is of the opinion that the railroad has damaged her health $5,000 worth and will ask a Buncombe county jury to so hold.—Asheville Gazette-News.

—Greensboro Record: The Southern Railway began Monday operating a standard chair car on trains 108 nd 135 between Greensboro nd Goldsboro. Hereafter it will be a regiar institution. It leaces here at 7:20 a. m. a. m. and returns on the 6:35 train in the evening. The service will be a boon to traveling people on local trains and will relieve to a large extent some of the congestion. This is the rush season and those who can afford to pay the seat rate will do so cheerfully, because it is money well spent. While the Pulman company has nothing to do whatever with its ownership and operation, standard Puldman rate wil prevail, in accordance with the day tariff for accommodations. There has been a demand for the service, but it could not be provided heretofore inasmuch as the Southern could not get the car from the shops. Now, however, it has been able to look more carefully to the wants of the public on this division. The train leaving here at 1:30 at night and the one ariving here at 4 o'clock in the morning from Goldsboro carry a Pullman. That service will not be disturbed.

—Goldsboro Record: The case of Watson vs Watson, in which Mr. Frank Watson, of Fremont, was suing for a divorce from his wife, the charge being infidelity, was decided in the Superior Court here Friday, when Mr. Watson was granted an absolute and unconditional divorce. Mr. Watson is the popular assistant cashier of the Bank of Fremont and the verdict is generally approved. Mr. Watson was represented by ex-Governor Aycock and Mrs. Watson was represented by able counsel from South Carolina. She is a beautiful woman and belongs to a good family, which makes the case indeed sad. Her maiden name was Miss Katie Clark, and her home Wilson. She now resides in South Carolina. She denied the charge, and asked for a divorce with alimony, but the jury failed to grant it. The corespondent in the case, a Mr. Munford, did not appear in court.

—Asheville Gazette-News Lumbermen in Asheville and western North Carolina are complaining biterly over the failure of the Southern Railway company to furnish them sufficient cars and also because they are unable to have cars of lumber consigned to them unloaded. The Asheville Lumber company has already instituted suit against the Southern and it is said that other lumbermen will shortly pursue this course and sue. Referring to the lumber situation today a prominent lumberman said that between the Southern Railway company and the continuous rains the lumbermen in this section of the state are about to be put out of business. The lumbermen have suffered considerable financial loss during the past few weeks on account of the inability of the railroad to handle their cars of lumber and it is stated on good authority that lawyers have advised the lumbermen that they could recover and that damage suits will follow.

—A Winston dispatch says: "Lewis Horton, a well-known colored man of Guilford College, claims to be 115 years old. The old negro visits Winston-Salem occasionally. He is as as chirpy as a cricket and talks nowingly of things a hundred years ago. He was in town yesterday. Dr. D. N. Dalton, of this city has been knowing Lewis for 40 years. The doctor well remembers when Lewis worked for his father and says that the gro even than was an old man. is sure that he was at least 50. Lewis says he remembers distinctly when the first building of the Salem Female Academy and College was being erected. This institution celebrated its centennial in 1902. He also has a distint recollection of the time the first cedar were et out in the venerable Moravian graveyard. Fifty years ago he made the dirt uy on the North Carolina Railroad between this city and Greenboro. There are thouands of things that Lewis has done in the last 104 years, but those mentioned he regards as epochs. Lews loks as if he had had the smallpox so scarred in his face. He is going to live in this old world many more years, he declares."

Still Ahead in Low Prices

Our regular prices are much cheaper than any special prices yet advertised. Our goods are NEW. The following shows how and why we do and can undersell.

Discount on account of large purchases, average,	*10 pr. ct*
Discount for cash (we pay cash), average	*10 pr. ct*
Savings of freight on car shipment, average	*5 pr. ct*
Total,	*25 pr. ct*

As you see, we can sell goods at a profit of 25 per cent. and at the same time sell them for just what they would cost us if we bought in small quantities, paid local freight and bought on time. We do not try to make 25 per cent.

Our claim is corroborated by the number of prudent purchasers we send. For June the 1st to the present, we have sold $4,540.21 worth of goods, received more than $3,300.00 in cash. Our books are open for inspection of any doubters. When in need of furniture come to headquarters.

ATTRACTIONS AT ACADEMY.

Murray and Mack Saturday Night; Jane Kennark Next Week.

An entertainment complete with originality and headed by comedians who are famous as originators and creators, is what local farce comedy lovers are promised to-morrow night when the famous original comedians, Murray and Mack, will appear at the Academy, as the opening number, with their brand new comedy, "Around the Town." This is a bold assertion, but their success this season justifies the claim. "Around the Town," while a farce comedy, cannot be classed with the average entertainment, that is travelling under that guise, as it has a well defined plot, and there is rhyme and reason for all the funny misbaps and incidents, which being understood by the audience, makes the fun more enjoyable, but, of course, all the three acts are lightened and brightened by an abundance of music and concert and individual specialities, but they are introduced with a view of fitting the surroundings, and not dragging.

Seats went on sale this morning.

Jane Kennark will present Clyde Fitch's play "The Toast of the Town" at the Academy Tuesday night. Miss Kennark has achieved, according to all accounts, one of the greatest triumphs of her career in this play. The drama is described as being the best that Clyde Fitch has written. He has provided Miss Kennark with a role—that of Betty Singleton—which gives the actress splendid opportunities. The play is in four acts and Mr. Fitch is said to have introduced many surprising novelties in it. The supporting company has been spoken of as being of surprising excellence.

The sale of seats will commence Monday.

H. J. Gerken & Company Dissolved.

Elsewhere in to-day's paper will be found an official notice of the dissolution of the partnership heretofore existing between Messrs. H. J. Gerken and W. R. Morrison under the firm name of H. J. Gerken & Co. Mr. Gerken retires from the business, which will in the future be conducted by Mr. Morrison at the same stand on Market street. Mr. Gerken bespeaks for Mr. Morrison the same liberal patronage heretofore extended to the said firm. Mr. Gerken has not yet decided in what business he will engage but has several propositions under consideration.

COLE BROTHERS' SHOWS.

Herd of Camels Feature Attraction to Be Seen Here Sept. 17th.

The sober, quite, innocent-looking camels in a menagerie are always objects of no little interest, because of their peculiar form. With the herd in Cole Brothers United Shows, which are billed to appear at Hilton Park Monday, Sept. 17th., are to be found some of the finest specimens ever exhibited in this or any other country, including the only living giant wild black camel known to man. While a party of hunters were in the high and cold regions near the Lake of Lob Nor last December in search of rare animals for Messrs. Cole, the men sighted a small number of wild camels, at the head of which was one towering far above the others in size and solid black in color. Never having seen the like before the collectors became fired with the desire to capture the strange creature. They succeeded but the chase was a lengthy and strenuous one, and before the prize was finally taken several battles royal were fought with Black King Camel victorious in all but the last one. Even after being made a captive, the beast gave his keepers no end of trouble and all kinds of difficulties were encountered before it was gotten out of its native stronghold and safely aboard the boat. Scientists and all students of natural history will find this untamable quadruped an interesting study.

Returning Miss Mitchell will resume her studies for the Fall and Winter term at the State Normal and Industrial College at Greensboro.

Wife Beat the Husband.

The usual order of things was reversed in Justice Bornemann's court yesterday when the wife of Dandy Johnson, the well known colored hack driver, was brought in on a charge of having beat her husband. The woman stoutly averred that she had been treated like a "yaller dog" as long as she would stand it and had therefore administered Dandy a good thrashing. The judge fined the woman $10 and costs and advised Dandy to stand from under in the future when domestic troubles arose for the woman showed herself a warm proposition even while the trial was in progress. She asked for a divorce from her partner in this life but Justice Bornemann advised her against such course and she flirted out of the office in a tantrum.

YACHT RACE FOR ROOSEVELT CUP

Third of the Series Between German and American Ships won by Vim, Winner of Yesterday's Race.

(By Wire to The Morning Star.)

Marblehead, Mass., September 6.—Today's race, the third of the series between German and American ships for the Roosevelt cup was won by Vim, owned by Commodore Parks, of the American Yacht Club of New York. The Vim was the winner of yesterday's race, the second of the series. The victory of the New York boat today was made certain a mile and a half from the finish by the withdrawal of the Auk, the winner of the first race of the series. The Auk withdrew because she fouled the Vim. The action of her owner in voluntarily surrendering his opportunity of taking the race was generally regarded as a most conspicuous sportsmanlike act. The Tilly VI., (German) was the second boat to finish but a protest was entered against her by he Wannssee (German), because of a foul which it was alleged took place on the line just as the boats started. The matter was taken up by by the racing committee a decision will be announced Saturday. The Caramba (American) was behind the Tilly VI. Next came the Wannssee, fifty-one sesonds behind the Caramba, while the German yacht Glueckauf brought up in the rear nearly two minutes astern of the Wannssee.

The race was practically a contest between the American boats Vim and Auk and it has been many a day since the spectators witnessed a yacht race as closely and cleverly fought.

RUMORS OF A LARGE DEAL

Pennsylvania R. R. Co. and U. S. Steel Corporation Interested.

(By Wire to The Morning Star.)

Philadelphia, September 6.—It was reported in this city today that the Pennsylvania railroad company had concluded a deal by which it expects to turn over to the United States Steel corporation its control of the Cambria Steel company, but all efforts to confirm the report were unsuccessful. The activity in the Cambria steel stock on exchange, it is believed, gave rise to the rumor which was denied at the offices of the Cambria Steel company. Brokers who have been selling large blocks of the stock refuse to say for whom they are acting.

MR. AND MRS. BRYAN AT HOME.

Enjoying a Rest After the Past Strenuous Week.

(By Wire to The Morning Star.)

Lincoln, Neb, September 6.—After the strenuous week since their arrival at New York, Mr. and Mrs. William J. Bryan today enjoyed quiet at their Fairview home. Mr. Bryan said that for himself and Mrs. Bryan, he wanted to thank the people of the country and especially those of his home state and city for the kindly way in which he had been received. September 10 Mr. Bryan leaves for a tour of three weeks in South Central and Southeastern states.

RATES ESTABLISHED.

Farmer's Union Fix Minimum Price for Cotton Seed.

(By Wire to The Morning Star.)

Texarkana, Ark., Sept. 6—The National Farmers Educational and Cooperative Union to-day decided that no cotton seed should be sold for less than the following rates:

East of the Mississippi river a minimum price of 30 cents a bushel or $18.60 a ton, as seed is worth that amount for fertilizer.

West of the Mississippi, a minimum price of $15, a ton.

CASE MOVED.

Alleged Lyerly Murders will be Tried in Stanly County

(By Wire to The Morning Star.)

Salisbury, N. C. September 6.—In the Rowan superior court today Judge Ferguson, on application of counsel for the defendants ordered case of Della Dillingham, Henry Gillespie and George Erwin, negroes who were to have been tried here this week for the murder of Issaac Lyerly, his wife and two children, last April, foved to the adjoining county of Stanly. It was represented that feeling against the negroes is so intense in this county that they cannot get justice. The prisoners were returned to Charlotte for safe keeping.

PRISONER EAGER TO RETURN

The President Shows Much Interest In the Case—Prisoner Has $12,000 Deposited in the French Bank at Tangier.

(By Wire to The Morning Star.)

Washington, September 6.—Shortly after noon yesterday Charles L. Binns, chief clerk of the State's attorney's office of Cook county, Illinois appeared at the State Department equipped with a full set of extradition papers which had been sent along merely as a precautionary measure, because they will not be needed in all probability to secure the return to this country of Banker Stensland, under arrest at Tangier, Morocco.

Mr. Binnes spent some time discussing with the officials of the department the best means of securing the return of the fugitive. All difficulties have disappeared excepting the question of transportation and that is now regarded as a minor manner. The department has decided to send by cable authorization to assistant State's Attorney Olsen and James Keeley, a Chicago newspaper man both of whom are now in Tangier to take Stensland into custody and fetch him to America. Two courses are open, one to place the man on the first merchant vessel touching at Tangier on her way to the United States and the other to await the arrival at that port of the naval refrigerating ship Glcier due in about three weeks on her way home to New York. No orders have yet been sent to the Glacier to serve in this capacity, though the matter was discussed today between Secretary Bonaparte and Admiral Converse, chief of the Bureau of Navigation. Naval officers are never anxious to use their ships to convey prisoners, but if the state department makes the request of course it will be honored. In addition to the cable authorization, the state department will send by mail the President's warrant to Messrs. Olsen and Koty to take Stensland into custody, which document may be of service when the man arrives in New York to thwart any legal efforts to secure his discharge by habeas corpus. The president, himself, has shown great interest in this case, having received many communications from people in Chicago uring the national government to do everythins possible to secure a prompt return of Stensland for trial. The State Department has anticipated these requests and has notified Governor Dineen that the department is perfectly willing to fully represent the state of Illinois in this matter until the fugitive is delivered in Cook county.

Chicago, September 5.—Late today Assistant State's Attorney Barbour received a message from Assistant State's Attorney Osien t Tangier requesting that the authorities at Washington permit Stensland to return without waiting for the arrival of legal documents. The prisoner was said to be willing and anxious to return to Chicago at once.

Receiver Fetzer, of the Milwaukee Avenue State Bank today received the filowing dispatch from Secretary Shaw at Washington. Assistant Secretary of State consulted the solicitor for the state department concerning the $12,000 deposited by Stensland in the French bank at Tangier. The solicitor sees no course open but for to to attach the fund according to law and according to the procedure controlling judical question affecting the French Bank at Tangier.

ANOTHER WONDER OF SCIENCE

Biology has Proved that Dandruff is Caused by a Germ.

Science is donig wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp falling hair, and finally baldness. Without dandruff hair must grow luxuriantly It is the only destroyer of dandruff. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

WAR BEING WAGED ON CATTLE TICKS

Work of Extermination Progressing Satisfactorily in the Southern and Some of the Western States.

(By Wire to The Morning Star.)

Washington, September 6.—The work of exterminating the cattle tick in the Southern and some of the Western States is progressing satisfactorily, according to a statement made by Secretary Wilson today. It began in Virginia and North Carolina where, it was stated, cordial co-operation is being given the Department both in money and the extension of State authority to the Department's officials.

The appropriation for carrying on the work was $82,500 and this is being apportioned in a manner to accomplish the best results. Some of the States have not enacted laws extending financial and other aid to the government, but Secretary Wilson said that even with the sum available much progress will be made. From California, Nevada, Oklahoma and Texas, he said, the reports already received give encouragement to the belief that in those States substantial progres has been made in exterminating the ticks.

HARVARD VS. CAMBRIDGE.

Increased Interest Manifested in Rowing Race on Saturday.

(By Wire to The Morning Star.)

Putney, England, September 6.—It was in every way a record crowd, especially in the matter of the number of American visitors, that was seen on the river today, testifying to the increasing interest in Saturday's contest between the Cambridge and Harvard University crews. Muttlebury, Escombe, Lehmann, Goldie and many other famous scullers followed the practice from a launch. The crews show unabated confidence which, judging from their practice displays is well justified from both sides. There is so little to choose that betting tonight again has become even. The Harvards have improved indirectly in the matter of starting, but in other respects appear little different in style from a few days ago. Dr. Thomas Manahan says they could not be in beter condition.

Cambridge today showed the finest style, breaking from 29 to the racing pace of 36 strokes to the minute. Their tactics evidently will be devoted to an atempt by hard work to wear down their opponents in the first mile.

CHARGE OF BLACK LISTING.

Complaint Filed Against a Railroad and Express Company.

(By Wire to The Morning Star.)

Washington, Sept. 7.—A charge of blacklisting is contained in a complaint filed with the inter-state commerce commission to-day by J. Eugene Walker, a citizen of Media, Pa., against the Baltimore and Ohio railroad company, and the United States Express company.

The allegation is made that in accordance with a joint system of package express for persons in towns adjacent to Philadelphia inaugurated by defendants, certain fixed rates were establishedand cofplainant avers that he with numerous other citizens enjoyed the benefit of these rates on parcels from Philadelphia to Hockessin, not only on defendant's lines but also on the trolley line to Hockessin, but that the defendants have since blacklisted the patrons of the trolley line and compelled them to send packages via the Pennsylvania railroad to Kennett Square, about five miles distant to avail themselves of the package rates. It is declared that the station agent of the Baltimore and Ohio railroad keeps in his office a list of patrons of the trolley line and that they are refused the privileges accorded to those who ride on the defendant's road.

NEW DEPARTMENT IN HIGH SCHOOLS

Scientific Cooking and the Care of Babies Will be Taught—Instructors Will Be Women of Experience.

Cleveland, Ohio.—That pupils in the Cleveland high school are to be taught scientifically now to become good wives. Superintendent Elson and his assistant, Miss [illegible], outlined their plans for a technical branch of the high school which would be devoted exclusively to the teaching of girls in the arts of housewifery, whether they intend to take up that profession later in life. The instructors will be women who have succeeded as wives, and will be much more practical than theoretical. The girls will be taught to sweep, to sew, how best to purchase household supplies and how to care for babies. They will have real babies to dress and care for under the watchful supervision, of course of the teachers who have gone through all these experiences.

Superintendent Elson said:

"This is not a fad or an experiment. We are going at this earnestly and scientifically. The average girl who marries today is woefully ignorant of the duties expected of her, and therin lies a lot of domestic misery, and to this fact can be traced the wedge which has broken up many homes which should have been permanent and happy. We are going to fit our girls to be wives, not servants. The first year they will take up the arts—applied arts and elementary sewing. The second year elementary chemistry in its relation to household duties and a more advanced course in sewing and the arts—that ability to make home beautiful and attractive.

"The third and foutrh, years will be devoted to scientific cooking. With good cooking our divorce courts lose much business. We shall teach the girls how to care for the invalid and especially how to care for babies; how to deal with the butcher and grocer and everything a wife should know. Even if our girls marry rich men and have servants to do their work this training will put them in a position to know whether their sevants are doing the work properly. One important feature of the training will be the teaching of the girls to make their own clothing and millinery."

Strange "Teas."

Tea is not always the fragrant beverage which cheers but does not inebriate, and the name has curious application. Ginger tea was once a most popular beverage. Cowslips and other flowers and herbs, including camomile, thyme, marjoram, balm and mint, have been used. Histories have made us familiar with the substitutes for tea which our Revolutionary grandmothers used after the tea from the East India company's ships was poured into Boston harbor. Tea made from the leaves of ribwort, strawberry plants and currant bushes, sage, thoroughwort and other herbs was drunk. So called "liberty tea" was made from the leaves of four leaved loose strife, while Hyperion tea, according to a valuable chronicle of the time, was made from raspberry leaves and was said by patriots to be very delicate and most excellent. The beverage may have tasted so to the patriotic palates, but many a colonial dame must have longed if she had allowed herself for the fragrant Hyson which she had been accustomed to enjoy.

The Light of the Moon.

The moon is a mirror which reflects the sunlight to us. An examination of moonlight with the spectroscope shows, of course, the same spectrum as that of sunlight. The quality of the reflection is indicated in the announcement that it would take no fewer than 618,000 full moons to supply to us an amount of light equal to that which we get from the sun, and there is only sky room for, say, 75,000 of them. The inclination of the moon's orbit to the horizon accounts for the harvest and the hunter's moon, which occur when the tipping is slightest, thus permitting the moon to rise about the same time for several successive evenings. The moon often appears much enlarged when on the horizon, but this is caused by the refractive feature of the air about the horizon and the natural tendency to compare it with terrestrial objects.

Some Strange Customs.

A very interesting account is given of the strange customs of the Bedouins of the Sinai peninsula in Lord Cromer's report on Egypt and the Sudan. If a man kills another in time of peace the relatives of the murdered man, beginning from the father to the fifth generation, have the right to revenge or pardon against the receipt of "blood money." This latter is fixed at forty-one camels. If the murdered man was of the same tribe as the murderer the latter or his near relatives have to give a girl in marriage to one of the victim's relatives without receiving the usual dowry. When she gives birth to a child she is free to go back if she chooses. In the latter case the marriage must be renewed and the usual dowry paid. Five camels may be substituted for the girl.

A TEMPEST IN A TEAPOT AFFAIR

In Mr. Bryan's Remarks About Railroad Ownership He Expressed His Personal Belief Only.

Washington, D. C., Sept. 5.—It is believed the Democrats of the country will awake to the fact in the course of a very short time, that many people and a number of newspapers have laid too much stress upon the portion of Mr. Bryan's speech in Madison Square Garden Thursday night, in which he declared it to be his personal belief that the Government would eventually have to take over the ownership of the railroads of the country.

"One minute of the speech was devoted to this subject," said a Southern Democrat in this city today, who attended the Madison Square Garden meeting. "Over an hour was devoted to the discussion of other subjects, and I am sure there was not a Democrat in the great audience who disagreed with a single utterance on any of them.

"Regarding the ownership of railroads by the Government, the press reports do not report Mr. Bryan with absolute accuracy. Prior to declaring Government ownership as the solution of the railroad question, Mr. Bryan not only declared that it was probable that the country and his party was not ready for such solution, but added, in order to indicate more clearly that he was intending to express only his own personal opinion, 'But I do not believe a man should hold a mass convention in order to find out what he himself thinks on any subject.' He thus made it additionally clear that he was only thinking and speaking for William Jennings Bryan.

"The whole stir over the matter is a tempest in a teapot. Suppose Mr. Bryan believes personally that the Government should own the railroad lines? His belief will not hurt nor help if the party does not declare for it. Suppose he should declare that baby blue is his favorite color, and the national convention should come out for red? Would Mr. Bryan be prohibited from running for the presidency on a Democratic platform? The views he may hold on Government ownership have about as much to do with his availability as a candidate as views he may hold regarding the comparative beauty or certain shades of color."

THE COTTON MARKET.

New York, September 6.—The cotton market was active and had a sharp advance during today's trading on covering and bull support, with the close off from the best but steady at a net advance of 9@12 points. Sales for the day were estimated at 350,000 bales.

The opening was quiet at unchanged prices to a decline of 2 points and at first the market acted barely steady in harmony with indifferent cables, a slack outside interest and selling by one or two local bears. Support was soon forthcoming however, and the market rallied shortly after the opening on buying by local bulls which has been more or less of a feature since the end of last week and which was assisted [illegible] today's session by inlo, Colo. [illegible] ousness among local Peak [illegible] some demand from the for round [illegible] h wire houses. Early 22 final [illegible] orts were considered ideal, Alan [illegible] ports showed more rain in Natoo [illegible] stricts than suggested by Octob [illegible] p, and the expectation that Sep[illegible] storm would reach the [illegible] part of the belt tonight, accompanied by heavy rains which might extend inland together with nervousness vore the approaching bureau report were bullish factors. At high point the market was 18 to 20 points net higher and the closing reaction reflected realizing rather than a renewal of bear pressure. Southern spot markets were 1-8c lower to 3-16c higher.

Spot cotton closed quiet, 10 points higher. Middling uplands. 10.00; middling gulf, 10.25; sales, 300.

DRY GOODS MARKET.

New York, September 6.—Dry goods buyers from the west who today tried to cover on goods which they are running shrt of found that on some of the commonest lines of cotton goods it is impossible to get an order accepted by first hands if it called for nearby delivery. In percales, shirtings, denims and bleached cottons of finer quality the situation is exceptionally strong. Raw silk has advanced sharply in price and in consequence buyers paid in full advance demanded in some quarters for silk piece goods.

The Greek Die.

The gold or silver blank, carefully weighed and roughly forged, was heated to redness and laid by tongs on the die. The top was then adjusted and the impression made by mighty blows with a smith's hammer. As no collar was used and all register neglected, the shape, but not the weight, of each coin varied. Parts of the device were often lost. Sometimes the edge of the metal cracked, and very frequently the impression doubled. Later on a hinged adjustment of the dies was used. Greek dies were not made of steel, but of hardened bronze. They soon wore and needed continual restoration and deepening. The die sculptors were therefore constantly at work on them. Careful examinations shows that the dies were mostly cut with a wheel, like gems, not with graving tools. This retouching of the matrices explains the numerous minute variations in duplicates of the same coins. Very few are found exactly alike. On the other hand, it must not be supposed that these exquisite works of art are always much defaced. The hoarding instinct has concealed many that had just left the mint and that preserve all their pristine exquisite sharpness. One of the loveliest of the Syracusan coins was found under some lava in Sicily as perfect as on the day it was struck.

THE CHAMPAGNE MAKER.

Why His Face Is Always Decorated With Scars.

The Frenchman's face was hacked and notched.

"Have you been a duelist?" one asked.

"No, no," the man replied. "I have been a champagne maker." He touched his face. "These honorable nicks," he said, "are champagne scars.

"Champagne scars," he went on, "decorate the visages of all the workers in the underground champagne mills of Rheims. They are caused by the bursting of the bottles. About one bottle of champagne in every ten bursts.

"There are miles and miles of champagne caves in Rheims, caves cut in the solid limestone rock, where, in a constant temperature of 45 degrees, millions of bottles of wine refine and ripen.

"The workers down there smell nothing but champagne all day long, champagne escaping from burst bottles, and as the turners move along the racks—each turns 35,000 bottles daily—they are continually saluted with explosions. Bang! And the glass splinters fly, and a little fountain of champagne perfumes the damp air.

"Day after day each bottle must be turned, turned fifty times altogether, till the sediment in it has all mounted up and concentrated itself around the cork. Then the corkers remove the corks, let the sediment thickened wine in the neck of the bottle blow off and skillfully replace the cork again.

"The corkers' and turners' work is dangerous. These men are nearly all scarred like me."—Kansas City Independent.

A True Ghost Story.

A lady I met in Ireland related the following facts to me just as they occurred. She was staying at a house near Bardon, County Cork. One evening she was walking up the long carriage drive to the house—it was bright moonlight and nearly as light as day—when she saw a tall figure coming down the narrow footpath beside the "drive" toward her. On coming closer she saw it was a man dressed all in black, wearing a tall silk hat, and she wondered who it could be. His head was bent forward so that the face was in shadow, but as they came close to each other he raised his head and looked at her and showed the most horrible face imaginable. With a gasp of terror, she stepped off the path, and at the same moment he did the same and, putting out a clawlike hand, touched her arm, and as she shrieked out in fear he completely vanished. She did not see him go, but he dissolved like mist. His face was not like that of a human being, and the horror of it was quite indescribable. Her arm that the specter touched was paralyzed and remained so for two weeks after. This apparition had been seen by other people, but only at a distance, and but few believed the stories current about the place being "haunted."—Occult Review.

The Nutmeg.

The nutmeg is the kernel of the fruit of several species of trees growing wild in Asia, Africa and America. The cultivated nutmeg tree is from fifty to seventy feet high and produces fruit for sixty years. The fruit is of the size and appearance of a roundish pear, yellow in color. The fleshy part of the fruit is rather hard and resembles candied citron. Within is the nut, enveloped in a curious yellowish red aril known to us as mace. To prepare the seeds for use they are dried in a moderate heat for about two months. Then the shells are broken and the nutmegs picked out and assorted, the inferior ones being reserved for the oil press. As the essential oil of nutmeg brings a high price, dishonest growers often steep the nutmegs in hot water to extract the oil from them. They are then coated with lime and sent into the channels of commerce. Such nutmegs are worthless, their aroma and pungency having disappeared, these qualities being due exclusively to the oil. If on inserting a pin no oil rushes out to the surface, the nutmeg is, to all intents and purposes, a wooden nutmeg.

He Knew the Game.

A Kenwood man consented the other day to go to the millinery department for the purpose of helping his wife decide on a hat. After much trying on the lady decided on two hats from which to make her selection. One of them was $24, the other $16.

"Now, I want you to tell me honestly, George," she said, "which of these two you would advise me to get."

Then she put one on after the other and permitted him to view her from in front, each side and from behind.

"Well, I'll tell you," he said at last. "The one you had on first looks to me as if it might be more stylish and all that, but the second one makes you look much younger than you do in the other."

He had wasted an hour, but he saved $8.—Chicago Record-Herald.

Short Lived Insects.

The wonderful brevity of insect life is curiously illustrated in the case of those that prey upon different species of mushrooms. The life of the mushroom itself is measured by hours, yet it is often entirely ruined by an insect which deposits its eggs upon the fungi while it is in the vigor of youth. The entire span of life of this mushroom insect is so brief that the grubs hatch from the eggs and the creature becomes fully developed and capable of laying eggs itself before the mushroom dies, even though the latter's life may not extend over a period of forty-eight hours from the moment it first pushes through the soil.

ON TRAIL OF BANK LOOTERS

Accountants Appointed to Examine Affairs of Wrecked Real Estate Trust Co.

OFFICIALS ARE IMPLICATED

Prospects of Reopening the Bank And That Depositors will be Protected —The methods used by President Hipple and Segal.

(By Wire to The Morning Star.)

Philadelphia, Sept. 6.—To determine the responsibility of the directors of the wrecked Real Estate Trust Company, State Banking Commissioner Berkey came here today and appointed as special bank examiners Charles M. Vollum and Meyer Goldsmith, expert registered accountants, who with the consent of Receiver Earle will tomorrow begin a thorough examination of the asssets and liabilities of the defunct concern.

Receiver Earle tonight after a conference with the directors of the trust company, issued a statement announcing that he hopes soon to re-open the doors of the bank and that all depositors will be protected.

Mr. Earle says the directors have responded to his solicitations to help re-organize the company, but he did not state what amount of money they have guaranteed. In order to successfully accomplish the rehabilitation of the company the receiver says the creditors must meet his efforts in the same spirit in which they were received by the directors.

The preliminary hearing of Adolph Segal, the promoter, William F. North, treasurer, and Marshall S. Collingwood, assistant treasurer of the Real Estate Trust Company took place today and the three were held in heavy bail for trial.

These are the three most important developments today in the affairs of the Real Estate Trust Company, the collapse of which and the suicide of its President Frank K. Hipple, have resulted in daily sensations for more than a week.

When it became known that banking commissioner, Mr. Berkey, had decided to personally interest himself in the trust company's affairs, there immediately arose many rumors concerning the probable criminal action against the directors of the institution. That these report were not unfounded was made plain by Mr. Berkey himself. Before appointing Messrs. Vollum and Goldsmith, he had a conference with Receiver Earle and upon obtaining the assurance of the receiver that he would gladly welcome any assistance that the State banking Commission might give him, Mr. Berkey at once instructed the acountants to begin their investigation to-morrow.

Commissioner Berkey stated that the examination should not occupy more than four or five days. The law gives the examiners the right to interrogate under oath any director, officer or employe of the trust company, or of any other company holding assets of the defunct concern. During the past few years, Mr. Berkey declared, practically every director of the Real Estate Trust Company had certified to the correctness of the reports filed by the company with the State banking department. These reports, he said, appear to have been false. If his examination sustains the falsity of the reports, Mr. Berkey declared, he would proceed against the directors and make an issue of their responsibility which has never been decided by the courts of this State.

The evidence presented through witnessed by District Attorney Bell, at the hearing of Segal, North and Collingwood, to-day disclosed the methods by which Segal and Hipple wrecked the trust company. The most damaging testimony was that to the effect that both Hipple and Segal had repeatedly overdrawn their accounts with the knowledge of the treasurer and assistant treasurer. These overdrafts were carried as cash accounts. On the day Hipple died there was an overdraft of $64,000 against the president which was converted by Collingwood into a loan showing Hipple's acount to be apparently straight. These overdrafts of Hipple and Segal at times amounted to more than $800,000.

There was on deposit in the bank approxifately $7,000,000 and the loans made to Segal amounted to $5,309,200. Many of the securities which have since been found to be insufficient were bonds and stocks of the Segal enterprises, and were approved personally by Hipple.

Although Receiver Earle appears hopeful of opening the bank at an early date, many of the creditors express some doubt as to his ability to do so.

Many depositors who placed money in the bank on Monday and Tuesday after the directors knew that it was insolvent were allowed to withdraw their deposits today.

COTTON GROWERS ARE IN SESSION

Meeting of Inter-state Executive Committee of Southern Cotton Association.

TO FIX A MINIMUM PRICE

Making Up Estimate of Year's Crop and Hearing Charges Against Officials for Dealing in Futures Will Be Taken Up.

(By Wire to The Morning Star.)

Hot Springs, Ark., September 6.—The inter-state executive committee of the Southern Cotton Association began its regular Fall session here today and has spent the greater part of its time in executive session in an effort to fix a minimum price at which cotton should be sold, but thus far no decision has been reached. More than 1,000 return postals in answer to inquiries as to the condition of the crop were submitted to the committee and representatives of the various sections gave testimony which will be used as a basis in arriving at the minimum price. The making upof an estimate of this year's crop and the report of the committee appointed at a meeting in Atlanta last month to investigate charges against officers of the Association of dealing in futures and other important matters will occupy the time of the members during the session which probably will continue through three days.

Fourteen members of the executive committee and ten presidents of ten States were present.

In his address, President Jordan spoke of the good that has been accomplished through closer relationship with the spinners and also referred to the action of the Southern wholesale Grocers Association in endorsing the use of cotton instead of jute bags.

He also called attention to the progress that has been made by local organizations in the building of warehouses. Mr. Jordan said that the finances of the Association are in bad shape, that no salaries have been paid since February and that there is no money in the treasury with which to conduct a campaign of any kind. He closed by referring to the report of the special officers of the Association who had dealt in futures while occupying their offices.

A motion by E. D. Smith, of South Carolina, that the committee go into executive session to discuss the minimum price at which cotton should be sold prevailed. The entire afternoon was spent in executive session and the night meeting was also taken up in an effort to arrive at the minimum price.

AGREEMENT REACHED.

Government Officials and Packers Settle the Label Question.

(By Wire to The Morning Star.)

Washington, September 6.—After numerous conferences between Secretary Wilson, Dr. Melvin, chief of the bureau of animal industry, and about forty representatives of the various meat packing houses, the problems which have arisen over the question of labels which, under the law, must be put upon the meat products, have been settled to satisfaction of all concerned. What probably was the last conference was held at the department of agriculture today, and the packers announced that they would prepare the labels by October 1, when the law goes into effect.

Throughout the discussions Secretary Wilson stood for labels which would state exactly what the packages contained and this the packers finally have acceped.

CRUISER NORTH CAROLINA.

Sponsor for Vessel—Large Number of North Carolinians Will be Present.

(By Wire to The Morning Star.)

Washington, September 6.—The navy department today wrote a letter to the Newport News Shipbuilding and Drydock Company ,which is building the armored cruiser North Carolina, directing the company to communicate with Governor Glenn of North Carolina with a view to the selecting of his daughter as the sponsor fir crunser when it is launched on October 6th at Newport News, Va. Communications to the navy department indicate that a large number of North Carolinians are preparing to attend the launching.

ON A FISHING TRIP.

Report That Nelson Was About to Die, Unfounded.

(By Wire to The Morning Star.)

Goldfield, Nev., Sept. 6.—The report that "Battling" Nelson was dangerously ill and was likely to die as a result of the beating at the hands of Joe Gans Monday is so far from true that Nelson left Goldfield this morning for Truckee for a fishing trip. Aside from some few bruises and internal hemorrhages he was not severely hurt in the fight with Gans. His face was beaten up as a natural consequence of frequent collisions with Gans' fist but nothing more serious.

NO RELIANCE ON PEACE MOVEMENT

Very Little Progress Towards Anything Like a Settlement Has Yet Been Made.

PEACE MOVEMENT RIDICULED

Business Men of Havana Assert That the Country Can Never Ge Governed Rightly Unless the United States Intervene.

(By Wire to The Morning Star.)

Havana, Sept. 6.—While the peace projects have caused general suspension of revolutionary operations no appreciable progress towards anything like a satisfactory understanding has been made. The liberal leaders insist that it is unjust to regard them as insurgents and assert that they are merely seeking for peace, at the same time declaring that not only must the terms of peace be better than heretofore talked of, but there must be some unquestionable guaranty that the conditions will be carried out to the letter. General Menocal was busy throughout the day receiving callers, mostly moderates and veterans, and holding conferences.. He said tonight he had no reason to be disappointed with the progress the negotiations are making and that the semi-official suspension of hostilities which began today in Santa Clara and Havana provinces would be extended to-morrow to Pinar del Rio, giving the veterans a chance to get among their comrades and others in the field, and push negotiations for peace. General Menocal appears not to be discouraged by the attitude of the liberals.

The demands which come from the insurgents themselves as the price of a cessation of rebellion are regarded in the capital for the most part, not to be considered. These demands include the restoration of deserters from the rural guards to their former positions, the reinstatement of liberals who last year were deposed from municipal offices, the retention of their arms by the insurgents, and other equally radical propositions. The liberals have not yet relinquished the hope that they may be able to force the resignation of President Palma and all the high government officials. The succession of Vice President Mendez Capote to the presidency is also discussed, liberals seem to think they could reach an understanding with him that would be satisfactory to all.

Many business men of Havana ridicule the whole effort for what they call a patched up peace which they allege, can be no more than temporary and some go as far as to assert that the country never can be governed rightly or investments be absolutely safe guarded unless the United States intervene. This is frankly stated in some cases also by high government officials and brings the retort that those who make such statements are not good Cubans.

Despite all drawbacks, however, the fact that peace proposals are pending and that hostilities has been suspended has brought more or less hopefulness to the people of Havana.

TO KEEP SUICIDE PACT

Contan Rini on His Way to Italy to Die on His Sweetheart's Grave.

(By Wire to The Morning Star.)

New York, September 6.—A dramatic scene occurred on the French Line pier today before the steamer LaProvence left for Havre. Among the passengers was Luigi Contan Rini, 34 years of-age who was bound for Italy to keep a suicide pact to die on his sweetheart's grave.

Antonio Contan Rini, a brother of the passenger, created the scene and afterwards told his brother's story.

He said that Luigi became betrothed to Josephine Ballatini a girl in his native town. Her parents opposed the match, preferring a weathier suitor and Luigi with his sweetheart's promise to keep faith, came to this country to seek his fortune. He established himself at Beaver, Oklahoma where he secured a farm. Then he wrote for Josephine to come, but she replied that she could not; that her parents forbade; that she intended to commit suicide and that she expected Luigi to join her in death.

News that the girl had carried out her purpose was received and Luigi sold his property at Beaver, and started for Italy to kill himself on the girl's grave.

Entreaties failed to swerve the man and on the pier today Antoni made his final appeal. He clung to his brother passionately, imploring him not to go. Luigi shook his head. Antoni then half dragged his brother to an open space on the pier, fell on his knees, raised a crucified aloft and renewed his pleadings Luigi could not be moved and finally turning his back on Antonio, went on board LaProvence.

When the ship sailed Luigi stood at the rail watching Antonio, who had again fallen to his knees and with outstretched arms was beckoning to his brother.
